

Top 10 Reasons Hospitals And IDNs Choose PolicyMedical

SaaS-based Risk, Governance and Regulatory Compliance Software Solutions for the Healthcare Industry

Trusted by more than 3000+ healthcare organizations, PolicyMedical is focused on delivering health and happiness to healthcare professionals through our user friendly risk, governance and regulatory compliance SaaS-based software solutions. Our [PolicyManager™](#), [Contracts Manager](#) and [Integrity Manager](#) software solutions enable time-starved healthcare professionals to automate and streamline workflows that were traditionally manual and paper based, optimize operational efficiencies, mitigate risk, reduce costs by 80% and improve overall patient quality.

1. Ease of Use

Our world class software solutions designed for simplicity boast an intuitive easy to use graphical interface that is easy to navigate whether you are a system administrator, a power user or a general user and even by users with minimum IT experience. We are focused on providing a seamless user experience to help users quickly find the policies, contracts and other documents needed to successfully perform their duties.

2. Flexible, Scalable Platform

PolicyMedical has more than 15 years experience working with healthcare organizations of all sizes. Our solutions have been developed for the needs of small hospitals, clinics and laboratories to the more demanding requirements of large integrated delivery systems who require a solution that offers the flexibility to scale across multiple facilities, business units and departments and to be accessed by thousands of employees on a daily basis.

“We are quite impressed with the product. It has been the fastest and simplest implementation we have had throughout our 5 homes. The team, at PolicyMedical, has been very supportive with the implementation.” Liz Borges, Executive Assistant at Responsive Health Management

3. Strong Customer Focus with Exceptional Customer Service

PolicyMedical is recognized by its customers for the exceptional and timely customer service provided by our North American Client Success team. Our team has experience successfully managing hundreds of deployments with a proven implementation methodology as well as providing virtual and/or on-site software training. Your success is of the utmost importance to us.

“Rated 10!! Your customer service is the best. You listen to your customer and make changes quickly... Definitely a difference for the better. Our policies are updated when needed and it is easy to find policies and approve them.” Niki Wiltshire, Executive Assistant, Clinic Administration, CoxHealth

4. Advanced Search and Autofill Google-like Search Functionality

Our software solutions provide front line staff and users with the ability to quickly find the documents they need to effectively perform their role especially at the point of patient care on any device. The advanced search functionality enables staff to secure the policies and documents they are seeking from anywhere within seconds.

5. Integrated Policy, Contracts and Vendor Management for one Comprehensive Regulatory Compliance and Risk Management Software Solutions

PolicyMedical's SaaS-based software solutions are designed specifically for healthcare. We understand hospitals and IDNs are under extreme scrutiny and pressure to be accreditation ready and meet regulatory compliance mandates therefore we have designed our solutions to provide the highest levels of efficiencies and productivity. Our integrated solution enables you to eliminate the need to manage multiple vendors, relationships and contracts.

6. Strategic Alliances

PolicyMedical has fostered strategic partnerships with leading software firms and accreditation agencies to deliver greater operational efficiencies through the integration of our solution with complementary technologies. Our reseller partnership with Elsevier enables hospitals and IDNs to procure our policy management solution directly from Elsevier and integrate it with Elsevier Clinical Skills.

7. Crosswalking Policies to Regulatory Bodies

PolicyMedical is focused on optimizing operational efficiencies and ensuring healthcare organizations maintain their accreditation status, therefore, we have formed partnerships with DNV GL, HFAP, and The Joint Commission to provide you with direct linkage to these accreditation bodies. Your policies can be mapped within PolicyManager™ directly to the Standards published by these agencies.

8. Comprehensive Audit Trails

PolicyMedical understands the need and importance of being able to provide administrative evidence of compliance whether that be for HIPAA or other regulatory compliance standards, therefore, our software solutions include detailed audit trails enabling you to invoke governance in the form of a comprehensive overview of all document interactions.

9. Real-time Email Alerts, Reporting and Web-based Dashboards

PolicyMedical's solutions provide real-time email and text based notifications as well as updates to web-based dashboards in the form of colour coded indicators to keep staff informed. We understand the importance of receiving information about new policies, OIG screening and exclusion results as well as contract expirations in a timely manner.

10. Continuous Innovation

PolicyMedical is focused on continually enhancing our software solutions. Our R&D team working under the direction of our Chief Medical Officer and Product Strategist works on 3-week sprints with new product features and enhancements being made available to you once a month. We also regularly reach out to our existing customers to solicit their feedback on enhancements and new functionality that will enable them to capitalize on greater operational efficiencies.

"As always, PolicyMedical and all those who assist us from PolicyMedical are awesome. The customer service provided is superb and should be a role model for all other businesses throughout the world." Myra, RN - Clinical Standards, Mountain States Health Alliance

About PolicyMedical

PolicyMedical is a leading provider of cloud-based enterprise-class healthcare regulatory compliance software solutions designed to reduce administrative burden and enhance patient safety. We were founded in 2001 with the vision to make people happy and healthy by reducing the stress, and anxiety related to policy, contract, vendor and employee management. Our customers include the likes of Dignity Health, Kindred Healthcare, Baylor Scott & White Health, Advocate Health Care and others.
